- Turkish
- English

HOBBIES

- Reading.
- Hiking.
- Camping.
- Playing basketball.

PROFILE

Versatile software developer with experience in frontend/backend development across loyalty, e-commerce, and platform-based systems. Skilled in ASP.NET Core MVC, React.js, React Native, Docker, and Redis. Focused on improving frontend skills through practice projects such as a React Native login UI with Google/Facebook auth and a Ruby Discord bot for real-time interactions. Agile team player with Scrum & Kanban experience.

EXPERIENCE

Software Developer at Biggplus, İstanbul, Beykoz
February 2023 — Present

Actively working on loyalty and e-commerce projects under BiggBrands. I contribute to both backend and frontend tasks with a focus on scalable architecture and business logic. Key areas of work include:

- Supporting development and maintenance of loyalty-based systems
- Creating SQL-based reporting views and integrating them into admin panels
- Developing order tracking and payment modules
- Enhancing Notification API and integrating SMS/Email via IYS
- Working with Microservice architecture, async programming, and queue systems
- Managing scheduled jobs with Hangfire
- Building and maintaining SaaS projects
- Collaborating in Agile environments using Scrum and Kanban

Full Stack Developer at MayaICT, İstanbul, Üsküdar
March 2022 — February 2023

Kariyer Portal Project

Project link: http://kariyerportali.ticaret.edu.tr/
Technologies used: ASP.NET Core MVC, MSSQL, HTML, CSS, AJAX, JavaScript, jQuery, Docker

- Joined the project during its mid-development phase.
- Improved my frontend development skills by converting Figma frames into functional web pages.
- Developed multiple pages within the platform.
- The project's goal was to build a network that facilitates collaboration between businesses.
- Utilized a microservice architecture with API communication handled via Swagger.
- Learned to manage project images using Docker and Portainer, gaining foundational DevOps skills.
- The project is currently inactive due to internal reasons but may be reactivated in the future.

Cleopatra Ink Project

Project link: https://cleopatraink.mayaict.com.tr/
Technologies used: JavaScript, jQuery, HTML, CSS, AJAX, ASP.NET Core MVC, MSSQL, Docker

- Initially joined the project as a frontend developer.
- Temporarily transferred to another internal project, then rejoined during the mid-phase.
- Focused on frontend revisions during the early stages.
- Contributed to both frontend and backend development in later stages.
- Worked with a microservice architecture; APIs were documented and communicated via Swagger.
- Handled deployment processes by managing Docker images and publishing them via Portainer.

Software Developer Intern at MayaICT, İstanbul, Üsküdar
November 2021 — February 2022

Developed a full-featured personnel management system during my internship, enabling CRUD (Create, Read, Update, Delete) operations such as employee registration, listing, editing, and deletion. Gained hands-on experience in MVC architecture, database integration, and backend logic development.

https://github.com/Sinan-Teker/.Net-Core-MVC-MSSQL-Personel-Save-List-Update-Delete

Software Developer Intern at Modaltrans, İstanbul, Maltepe
August 2021 — October 2021

Worked on a payment infrastructure project using Ruby on Rails and Stripe API. Focused on developing and testing core billing features including:

Customer and product management

Pricing and subscription models

Payment methods and one-time charges

Tax rates and invoice handling

This hands-on experience enhanced my understanding of modern payment systems, API integration, and backend development in a real-world financial context.

EDUCATION

Ataturk University, Computer Engineering, Erzurum
September 2013 — April 2024

In 2014, I was in the top 10% and finished the semester in 3rd place.

Karadeniz Technical University, Metallurgy and Materials Engineering, Trabzon
September 2010 — June 2013

Metallurgy and Materials Club

Clerk
Duration: Oct 2012 – Jun 2013

Actively supported the organization and coordination of club activities and events. Assisted with administrative tasks, meeting organization, member communications, and documentation. Gained early experience in teamwork, planning, and communication within a student-led technical community.

Çayeli Vakıfbank Anatolian High School, Rize
September 2005 — June 2009
